RSU Research Week offers lecture – masterclass

«Occlusion & Case Planning»

by Michael J. Melkers, DDS, MAGD (USA)

Michael J. Melkers, DDS, MAGD

Dr. Melkers is a 1994 graduate of Marquette University School of Dentistry & currently serves as Visiting Faculty at Rīga Stradiņš University & The Pankey Institute.

He is also an Ad hoc reviewer for the Journal of Prosthetic Dentistry. In the past he has been Director of Occlusion & Aesthetic Dentistry at the Pacific Northwest AEGD Residency Program and Visiting Faculty at The Spear Institute. He just finished his tenure as Editor for American Equilibration Society

and received the 2018 AES President's Distinguished Service Award.

Dr. Melkers is a Master of the Academy of General Dentistry & maintains a private clinical practice in Hanover, NH with a focus on comprehensive adult restorative care.

Expanded biographical and background information can be found on www.MichaelMelkers.com

INTRO

Lecture by Dr. Michael Melkers «Treatment Planning & Application for the Everyday Practice»

09:00, 1/2 day, 5 April. Fee: 100 EUR

Treatment planning & occlusion seem to get relegated & put on hold for those 'special' cases and perfect patients. In this program we will explore and discuss the application of communication, treatment planning & occlusion in everyday dentistry and beyond. Dr. Melkers will take you on a guided tour of the application of these principles on a variety of cases from a single tooth, quadrant and full mouth, multidisciplinary care. Our goal is to help you implement these skills in your practice.

LEARNING OBJECTIVES:

1 – Upon completion, the participant shall be able to appreciate purpose vs process treatment planning as it applies to outcome based treatment planning **2** – The participant will have a thorough understanding of the benefits of patient centered, doctor facilitated approach to case planning and acceptance. **3** – Learn when, why & how phasing treatment can be done safely.

Lecture by Dr. Michael Melkers «Function, Parafunction & What the Function – Forces that Threaten our Success»

13:00, 1/2 day, 5 April. Fee: 100 EUR

Failure visits our practices in many forms and on many materials. In this program we will explore the forces that threaten our success and what options we have to address them. Occlusion. It can be one of the driest & most confusing of subjects. It is however one of the most, if not THE most critical aspect of diagnosis and treatment planning when it comes to the longevity of the restorative dentistry that we provide for our patients. During this interactive lecture, Dr. Melkers will guide an exploration and discussion of where we have been as a profession, where we are in our understanding and what mysteries still need to be solved.

LEARNING OUTCOMES

1. Learn to recognise critical parafunctional red flags and why they matter **2.** Appreciate the balance between function, parafunction & aesthetics **3.** Learn realistic management of destructive forces in restorative dentistry
